

DEFINITIONS OF TERMS USED:

AB (Accident Benefits)

A relative index based on the frequency of Accident Benefit (personal injury) claims

Claim Cost

Average amount paid for insurance claims for each vehicle

Collision

A relative index based on the cost per vehicle for Collision insurance claims

Comp (Comprehensive)

A relative index based on the cost per vehicle for Comprehensive insurance claims (including theft)

DCPD (Direct Compensation Property Damage)

A relative index based on the cost per vehicle for Direct Compensation Property Damage insurance claims

Body Style

Type of vehicle:

2D = 2/3 doors

4D = 4/5 doors

PU = Pickup

SUV = Sport Utility Vehicle

VAN = Van

WGN = Wagon

COLOR SCHEME:

Ratings are expressed in relative terms with 100 representing the average in each category.

This means a result of 122 is 22% above the average and a result of 87 is 13% below the average.

Lower numbers indicate more favourable ratings.

The indexes for Accident Benefits claims are shown only by colour and do not include numerical values.

This is because there are fewer Accident Benefits claims than other types of claims each year, so a numerical index would be misleading.

 More than 120 (20% above the average)

 Between 81 and 120

 Less than 81 (19% below the average)

"blank" Less than the required 1500 vehicles were insured during the time period being considered

SORTING OPTIONS:

To sort the table by a specific coverage
