GISA has produced an industry exhibit by FSA, **AUTO1085-ON**, on a trial basis to determine interest and potential further development. By-company exhibits by FSA are not available at this time. Please note that conventional data validation, consistency and reasonability checks have not been performed and data are presented on a raw basis.

The Special FSA Analysis Exhibit displays the Number of Vehicles, Premium and Incurred Loss information for the 2015 to 2019 Accident Years, valued as of December 31, 2019. The Loss information is on a factored basis. Also included in the exhibit are Notes to Users.
