

Data Accuracy

Reporting of
Claim Count

Automobile Statistical Plan

Number of Claims

Automobile Statistical Plan

For each coverage and kind of loss code

- **Claim Count “1” = New**
- **Claim Count “0” = Subsequent Transactions**

Transaction	Claim count
First indemnity payment reported	1
Expense payments	0
Additional or subsequent indemnity payments	0
Reserve entries after an indemnity payment	0
Reserve entries if no indemnity payment entry	1

Exception:

- If the first indemnity payment and reserve transaction are reported in the same month, the first indemnity payment must be a "1" and the reserve in the same month is reported with claim count 0.
- All subsequent reserves and indemnity payments must be reported with claim count "0".

CLAIM COUNT NOTES

- Expense payments always = “0”
- Closed claim re-opened = “0”
- Recovery or salvage = “0”

Exception:

If recovery or salvage
totally offsets the loss = “1”
