

1 Clear snow away from your house, especially basement windows and doorways

2 Check your property for obstructions that may prevent snow from draining

3 Clear a path for water to drain away from your house

4 Clear any drains around your house

5 Inspect your sump pump to make sure it is working properly

6 Check catch basins on the street to ensure they are not obstructed

IBC **TOP 10**
TIPS

Melting
snow and ice

#SpringThaw

7 Keep your driveway and walkways clear of snow and ice to prevent slipping

8 As snow melts around homes, it might become slippery

9 Watch for snow and ice that may be falling overhead
